

CME'S FROM MEDIMMUNE ONCOLOGY

The following CME programs are now available to radiation oncologists in audio-CD format: Current Issues in Therapeutic Radiology: Head and Neck Cancer and Issues in Radiation Therapy: Lung Cancer. Please contact your local MedImmune Representative or contact MedImmune directly at 877.633.4411 to find out how to order these audio programs.

FROM ROCHE: DIALOGUES IN CHEMOTHERAPY

The following continuing medical education (CME) programs are now available to oncologists, hematologists and radiation oncologists via live telephone conference call. Each moderated conference call will consist of two presentations (20 minutes each) followed by 15 minutes of Q&A.

TOPIC #1: NEW TREATMENT OPTIONS FOR COLORECTAL CANCER

- *Colorectal Cancer: The Latest Treatment Strategies*
Learning objective: Identify "state-of-the-art" clinical strategies for the management of colorectal cancer with fluoropyrimidines or combination therapies
- *The Use of Oral Fluoropyrimidines to Treat Colorectal Cancer*
Learning objective: Describe the newest treatment protocols using oral fluoropyrimidines in the management of colorectal cancer

TOPIC #2: NEW TREATMENT OPTIONS FOR BREAST CANCER

- *Current and Future Treatment Strategies for Neoadjuvant/Adjuvant Breast Cancer*
Learning objective: Explain the roles of

local therapy, hormonal treatment and chemotherapy in the treatment of neoadjuvant/adjuvant breast cancer

- *Treatment of Metastatic Breast Cancer Following Disease Progression after Anthracyclines and Taxanes in the Adjuvant Setting*

Learning objective: Identify the newest protocols for the treatment of metastatic breast cancer (MBC) following disease progression after administration of anthracyclines and taxanes in the adjuvant setting

HOW TO REGISTER

Register for the telephone conference by calling 877-963-3532 between the hours of 8:30am and 5:30pm, EST, Monday through Friday. A variety of dates and times are available to meet your schedule. Via overnight mail, you will receive your course materials, which will include the toll-free number for dialing in to the telephone conference.

This activity is sponsored by the Veititas Institute for Medical Education and supported by an unrestricted educational grant from Roche Laboratories Inc.
