

FLORIDA INFUSION

1-800-624-0152

Service, Service, Service

*Our educated and courteous staff
is waiting to assist you!*

In a world changing faster than most of us would wish, personalized customer service seems to have become harder to come by than a winning Lottery Ticket. Maybe technology is to blame. For some suppliers, good service means communicating with customers by sending that quick e-mail or fax.

For them, it's just more convenient than picking up the phone and actually speaking to a customer. Do you find that when you call certain suppliers to place an order, more often than not, you're placed on "hold" and forced to leave a voice message for someone who may or may not get back to you in a timely manner?

Busy. Busy. Busy. And finally, when you do get someone on the phone to place an order do they seem to be listening to you? Are they informed? Are they educated? Are they rude? Are you left feeling helpless and frustrated? If you are not already enjoying the pampered service FloridaInfusion offers, maybe it's time for a change.

At FloridaInfusion, we've been providing the highest quality customer service to physicians and clinics across the nation for nearly 20 years.

Sure, we have all the latest technology, including e-mail and an outstanding web-site with on-line ordering. But most of our customers still prefer that one on one relationship with their personal account manager backed up by the best customer service team in the business. They like our friendly style. They appreciate our professionalism. They benefit from our experience. They save money with our low, low prices. Our team offers a level of service that will pleasantly surprise you.
