

CE OPPORTUNITY FROM AMGEN

The Cost of Administering Drugs at the Point of Care in Community Oncology Practices: An Exploration

This CME activity is supported by an unrestricted educational grant from Amgen, Inc.

This program will be available from November 19, 2003 thru November 19, 2004.

Presented By

Barry Fortner, PhD, Chief Operating Officer Supportive Oncology Services Accelerated Community Oncology Research Network Memphis, Tennessee; **Ted Okon, MBA**, Chief Executive Officer Supportive Oncology Services Accelerated Community Oncology Research Network Memphis, Tennessee

Sponsor

This program is sponsored by Medical Education Resources, a non-profit medical education company.

Accreditation for Physicians

Medical Education Resources is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to sponsor continuing medical education for physicians. Medical Education Resources designates this educational activity for a maximum of **1 category 1 credit** toward the AMA Physician's Recognition Award. Each physician should claim only those credits that he/she actually spent in the

activity. This CME activity was planned and produced in accordance with the ACCME Essentials.

Accreditation for Registered Nurses

This CE activity is approved for **1.25 contact hours**. Medical Education Resources is an approved provider of continuing education by the Colorado Nurses' Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation. Provider approved by the California Board of Registered Nursing, Provider #CEP 12299, for **1.25 contact hours**. This program is intended for physicians, nurses, and other staff members involved in office practice management.

Educational Objectives

Following the AudioConference, participants should be able to:

1. Identify all of the costs involved in the administration of cancer drugs at the point of care.
2. Examine the relationship between cost and reimbursement.

3. Discuss results from a unique study examining human resources utilized in administering care and treatment at the point of care.
4. Explore the trade-offs between cost and reimbursement involved in multiple visits to administer supportive care drugs.
5. Utilize both practice and national level analyses and databases, to provide community oncology practices with an "edge" in dealing with public and private payers.

Participation Information

To Participate in this CME on Demand Program follow the steps below:

1. Call Interactive Network for Continuing Education (INCE) at **800-222-4623** or **609-819-4100**.
2. Workbook materials will be sent to you within 7 working days.
3. To gain access to the program, you will be prompted to input an access code via the telephone keypad. You will receive your access code, as well as the dial-in number for the CME on Demand with your workbooks for the program.
