NEW BAXTER AGREEMENT FOR WINRHO SDF

Effective April 19, 2005, WinRho® SDF [Rh₀(D) Immune Globulin Intravenous (Human)] is available as part of the new OA agreement with Baxter. The product is available in 120 mcg, 300 mcg and 1000 mcg vials and is offered to all OA Members in good standing. *There is no enrollment required to receive immediate savings on WinRho® SDF.* This agreement will run until **March 31, 2006**.

About WinRho: WinRho® SDF is a purified human immunoglobulin used to treat immune thrombocytopenic purpura or ITP.

WinRho® SDF is recommended for the treatment of non-splenectomized, Rh₀(D) positive:

- > children with chronic or acute ITP,
- > adults with chronic ITP, or
- > children and adults with ITP secondary to HIV infection

The above refers to clinical situations requiring an increase in platelet count to prevent excessive hemorrhage.

Contact Oncology Associates at 888-732-7352 with questions about the Baxter agreement.

Product	NDC#	Description
