

NEUMEGA AGREEMENT REMINDER

Oncology Associates would like to remind you of its agreement with Wyeth Pharmaceuticals for purchases of Neumega (oprelvekin). The agreement offers a floating 5% discount to all OA Members and is effective March 1, 2006 for a period of one year.

NDC #	Vial Size	Vials/Box	% Off List
58394-004-01	5 mg	1 vial; 1X10	Float 5%
58394-004-02	5 mg	1x7	Float 5%

OA PARTNERS WITH CSI LABS

Revenue Opportunity for OA Members

Oncology Associates is pleased to announce a new partnership with CSI Labs, a lab specializing in the following:

- > Flow Cytometry (**results by 2:30 EST the next day**)
- > Hematopathology Consultations
- > Cytogenetics (**results within 3-5 days**)
- > FISH (**results within 3-5 days**)

Benefit to Your Practice

- > **CSI Labs accepts all insurances**
- > CSI will work through your local hospital and with your local pathologist to obtain faster results
- > Charges in-network deductible and co-pay
- > Won't turn your patients over to collection agencies

Revenue Opportunity for OA Members

- > CSI Labs and OA will make available to your practice the ability to bill private insurance for laboratory results
- > In those states without restrictions

Please contact Oncology Associates at **888-732-7352** for more information about using CSI Labs in your practice.

ORDERING PROCEDURES FOR MITOMYCIN UNCHANGED

The ordering procedures for Mitomycin for injection, USP are unchanged following the acquisition of Nipent (pentostatin for injection) by Mayne Pharma (USA), Inc. There has been some confusion regarding the ordering procedures for mitomycin.

To order mitomycin, please continue to use your normal ordering procedures with your SuperGen account.

For additional information, please contact SuperGen Customer Service at 800-905-5474, Monday-Friday 8am-5pm EST.
