

Austin, Texas

OA Head Nurse/Practice Manager Conference

March 24-26, 2006 Austin, TX

OA Head Nurse and Practice Manager Members met in Texas' capital for OA's Bi-Annual Conference. The conference featured Pat DiBenedetto, RN, expert reimbursement specialist. Pat discussed many of the new Medicare changes facing our practices in 2006. In addition, members were privy to a patient caregiver workshop called, "Strength for Caring." Many of our members showed interest in implementing this program in their own communities. Most importantly, several clinical presentations were featured on topics such as early stage breast cancer, CINV, multiple myeloma, MDS and head & neck cancer therapy. Summaries of several presentations can be found on the following pages.
