OA Head Nurse & Practice Manager Conference
October 13-15, 2006
Cleveland, Ohio

OA Head Nurse and Practice Manager Members recently rocked the town at our fall conference in Cleveland, OH. The highlight of the conference was a coding and billing update by Reimbursement Specialist, Pat DiBenedetto, RN. Pat's presentation sparked tremendous conversation between the members and was a great learning experience. Members were also educated about the Pact + Program, Sanofi Aventis' reimbursement program, which serves both oncology professionals and patients. Additionally, several clinical presentations were featured, including, "Advances in Oral Chemotherapy" and "Emerging Nanotechnology" (see summary of this presentation on the following page).

OA Members enjoyed sightseeing, a trip to the Rock and Roll Hall of Fame + Museum and a dinner at the House of Blues in downtown Cleveland. As always, we appreciate the support from our sponsors and members.
